

First week of August

Contributed by Larry Lawless
Sunday, 06 August 2006

Kevin has compiled the rough mix of the 9 tunes we edited while I was still in Boulder, Bart is finishing work on "Hevy Revy". Once we get the final mix done and approved, it goes to the mastering house in Boulder. Kevin has worked with these people before and they have won Grammys for past projects.

I'm in contact with the CD designer, and have done a photo shoot at the Erath County jail for the cover shot. The photo was taken by my friend Officer Jimmy Kennerly and supervised by Sheriff Tommy Bryant.

At this point, we're on track for our goal of having the master disc ready by the first of September and release in October. The CD will be available here on this site, as well as the DrummerCafe, and at the DrummerCafe booth at the Percussive Arts Society convention in Austin, Texas, in November.
