

Wait for it ...

It's getting hard for us to be patient, but the time is near for the release of the CD. We have finished the mixing process and the CD is scheduled for mastering Friday, September 29 by Airshow Mastering of Boulder, Colorado. If all goes well there, it should go to the manufacturer next week, with a predicted turnaround time of 15 business days. Look for the release by the end of October.

Bart and I will be manning his DrummerCafe booth in the exhibit hall at the Percussive Arts Society International Convention to be held in Austin, Texas from November 8th through the 11th. We will have the CD there for sale, so if you are a percussionist (or anyone who likes percussion) stop by to get a listen to the tunes and meet us.
